

Marxists Want the Virus and Racial Chaos to Defeat Trump

BIG SANDY, Texas—In every election year, it is expected that the opposing party seeks to remove the party in power. It is difficult for an opposing political party to defeat an incumbent presidential candidate—especially one who was presiding over a booming economy.

For the past three years, the normal course of action has occurred—the opposing politicians had sought to obstruct the President's agenda with help from career bureaucrats, activist judges and a cooperative media.

And now, Marxists among the politicians and the complicit media have latched onto a plan with the intent to defeat President Trump—featuring the virus and racial chaos.

(For the record: Not all people who want to see President Trump defeated are Marxists. However, just as there has been in previous decades, there are a growing number of Marxists among the present-day politicians and media.)

Following are multiple headlines about the virus and the racial chaos.

Looking back to March, an article by Jiachuan Wu, Savannah Smith, Mansee Khurana, Corky Siemaszko and Brianna DeJesus-Banos titled “Stay-at-Home Orders Across the Country” was posted at nbcnews.com on March 25, 2020 (updated on April 29, 2020). Following are excerpts of the article.

The White House and all prominent public health officials have urged people across the country to stay at home as much as possible to prevent the spread of the coronavirus. Nonetheless, governors of five states have yet to issue lockdown orders for their residents, and three states have issued only partial measures.

The vast majority of states have officially ordered most residents to stay indoors, except for essential workers or in specific circumstances. In hardest-hit New York, for example, Gov. Andrew Cuomo has ordered residents to stay at home and all nonessential businesses to close.

“It’s not about staying home. It’s about avoiding contact,” North Dakota Gov. Doug Burgum, a Republican, said recently when asked why he has not given that order.

Oklahoma, Utah and Wyoming have partial stay-at-home orders so far.

See our state-by-state breakdown of existing lockdown orders to help you figure out how much room you have to move. This data will be updated as new measures go into effect.
