**Luke 21:34-36**—"But take heed to yourselves, lest your souls be weighed down with self-indulgence, and drunkenness, or the anxieties of this life, and that day come on you suddenly, like a falling trap; for it will come on all dwellers on the face of the whole earth. But beware of slumbering; and every moment pray that you may be fully strengthened to escape from all these coming evils, and to take your stand in the presence of the Son of Man" (Weymouth New Testament).

An article by Staff titled "How Many Monarchies Exist in the World? Know All About Them Here" was posted at news9live.com on Sept. 14, 2022. Following is the article.

---

In modern monarchies, the power of a monarch - a King or Queen or Empress - is limited by laws, a constitution, and a democratic government body with a Parliament.

- Most monarchies today have ceremonial figureheads with minimal political powers.
- Commonwealth nations are the countries where the British crown once ruled or currently holds power.
- There are 42 countries where monarchies are present.

**New Delhi:** Hundreds of years ago when civilization was taking shape, the most common type of government was a monarchy. Monarchy is defined as a type of rule where a person rules a country or many countries. In ancient times, the monarchy was the only kind of government that ruled. But as the world evolved, countries liberalised and monarchy became more and more uncommon.

After Queen Elizabeth II's death, King Charles the Third has become the king of the commonwealth nations around the world. He will rule, completely or partially, the commonwealth nations. However, many commonwealth nations are now independent republics like India. But there are still several countries where the British crown holds power.

At present, if we ignore the countries where Charles the Third will rule because several countries where Queen Elizabeth the second held power, may change their minds in the coming months, there are 28 monarchies in the world.

Monarchy, in its current arrangement, exists in many forms. There are absolute monarchies where a person rules without any checks or balances. It is a rare kind, most modern monarchies are limited monarchies.

In modern monarchies, the power of a monarch - a king or queen or empress - is limited by laws, a constitution, a democratic government body with parliament, etc. These limited monarchies can be further categorised into mixed monarchies or federal monarchies.

So, the bottom line is that today monarchies are not defined as they did a thousand years ago when a king ruled and collected taxes or exploited the citizens.

At present, monarchies align with the countries' interests and have partial - like the UK - or no power in policy-making, international affairs, and defence. Very few monarchies in the world have an undisputed rule of their king or queen.

Most of these monarchies today have ceremonial figureheads with minimal political powers. For instance, the British monarch - Queen Elizabeth the second and now king Charles the Third - is the head of State of 15 nations, including the UK, and possesses prestige, great wealth, and respect. However, the country is ruled by a Parliament and its head of the government, i.e. a Prime Minister.

Here's a look at the monarchies in the world.

### **The commonwealth realm**

Commonwealth nations are the countries where the British crown once ruled or currently holds power.

- There are 15 countries - including the UK - where the British crown holds power. It is the most popular and biggest monarchy and is called the Monarchy of the United Kingdom of Great Britain and Northern Ireland. Queen Elizabeth the second was the longest serving monarch in the world.
- These countries are Australia, the Bahamas, Belize, Canada, Grenada, Papua New Guinea, Jamaica, New Zealand, St Christopher and Nevis, St Lucia, Tuvalu, Barbados, Antigua and Barbuda, and the Solomon Islands.

### **Bahrain**

It is a constitutional hereditary monarchy since the 18th century which has been ruled by the House of Khalifa. It is a muslim country where the Shia sect is in majority. It is ruled by a Sunni Khalifa who is the chief of the state, however, the head of the government is the prime minister.

At present, King Hamad bin Isa Al Khalifa is ruling the country.

## **Saudi Arabia**

It is an Islam-based monarchy. Here the king heads the government and is the commander in chief of the military. A crown prince is appointed by the king to aid him with duties.

King Abdulaziz Al-Saud established the current form of the modern kingdom in 1932. After he died in 1953, his sons ruled the country. King Salman bin Abdulaziz Al Saud is the ruler since January 2015.

## **Thailand**

It is referred to as the constitutional monarchy or monarch of the Kingdom of Thailand. It was earlier known as Siam. Here, the king heads the state and the ruling Royal House of Chakri.

At present, the only heir of King Bhumibol Adulyadej and Queen Sirikit, Vajiralongkorn is the king. He was made crown prince in 1972 at the age of 20.

## **Malaysia**

The Malaysian monarchy is unique because it has 9 Malay royal hereditary ethnic rulers who establish the Conference of Rulers. Each of them is ruling a separate state in the country - Negeri Sembilan, Pahang, Johore, Kelantan, Selangor, Terengganu, Perlis, Perak, and Kedah.

Seven kings use the title 'Sultan'. Negeri Sembilan king uses 'Yang di-Pertuan Besar' and Perlis' King uses 'Raja' as their respective titles.

Since 1957, when colonial rule ended, the king is elected every five years by the 9 rulers. At present, Sultan Abdullah Sultan Ahmad Shah is the king since 2019.

Other than these, Denmark, the Netherlands, Spain, Cambodia, etc, are also monarchies.

"Eye on the World" comment: Since it is so rare that Joe Biden makes himself available to the media (and to the citizens of the U.S.), is important for citizens to be aware of what he says when the sporadic opportunity arises. The following headlines are about Mr. Biden's interview on Sept. 18. The articles were not posted, but the headlines give the essence of the story.

"Eye on the World" comment: Claiming that the SCOTUS abolished abortion is either ignorant or devious. The SCOTUS did not abolish abortion. It merely put the topic back into the purview of the states— reducing the matter to a states-rights issue. Consider comparing the subject of abortion to slavery. Just as Christians are pleased that states cannot make slavery legal by voting, they also wish that states cannot make abortion legal by voting. The following headlines are about abortion articles that involve the United States. The articles were not posted, but the headlines give the essence of the story.

***Isaiah 55:6-11***—"Seek you the Lord while He may be found, call upon Him while He is near. Let the wicked forsake his way, and the unrighteous man his thoughts; let him return to the Lord, and He will have mercy on him; and to our God, for He will abundantly pardon. 'For My thoughts are not your thoughts, nor are your ways My ways,' says the Lord. For as the heavens are higher than the earth, so are My ways higher than your ways, and My thoughts than your thoughts. For as the rain comes down, and the snow from heaven, and do not return there, but water the earth, and make it bring forth and bud, that it may give seed to the sower and bread to the eater, so shall My word be that goes forth from My mouth; it shall not return to Me void, but it shall accomplish what I please, and it shall prosper in the thing for which I sent it."
