**Luke 21:34-36**—“But take heed to yourselves, lest your souls be weighed down with self-indulgence, and drunkenness, or the anxieties of this life, and that day come on you suddenly, like a falling trap; for it will come on all dwellers on the face of the whole earth. But beware of slumbering; and every moment pray that you may be fully strengthened to escape from all these coming evils, and to take you stand in the presence of the Son of Man” (Weymouth New Testament).

An article by Susan Salisbury titled “[Retired U.S. General David] Petraeus: Russia and Ukraine Will Agree to Negotiated Resolution of War” was posted at palmbeachdailynews.com on Jan. 11, 2023. Following are excerpts of the article.

---

Russia and Ukraine will ultimately agree to a negotiated resolution of the war that began after Russia’s brutal and unprovoked invasion of Ukraine in February 2022, retired U.S. Army Gen. David Petraeus said.

Eventually, Russian President Vladimir Putin will realize the war is not sustainable on the battlefield (where more than 100,000 Russian soldiers have been killed) or economically.

Russia’s economic development is estimated to be set back by a decade, and 1,200 U.S. and other western nation companies have left Russia or drawn back their operations.

Ukraine’s infrastructure (including its electrical transmission and generation capabilities and water systems) and economy are heavily damaged, and that damage is not sustainable over time, Petraeus said.

It’s unlikely Ukraine will be accepted into NATO as other countries probably will not agree to that, Petraeus said.

Petraeus praised Ukraine’s military prowess and called Ukrainian President Volodymyr Zelenskyy’s leadership “Churchillian brilliance.”

Petraeus predicts that future wars will include vast numbers of unmanned, algorithmically driven weaponry.

The focus is rightly on China, its rise and its actions including economic coercions, physical intimidation and killing Indian soldiers in 2020 over a disputed border.

Petraeus compared the situation to a circus performer juggling plates spinning on a stick. China is the biggest “plate,” but others are North Korea, Iran, Islamic extremist groups and cyber security threats.

While border security and illegal immigration from Mexico are big political issues, other issues are greater. Mexico is run by criminal empires that are heavily armed and financed and taken over entire Mexican states.

Despite the challenges, Petraeus said he is confident about America’s future. The United States will end up being the biggest chip manufacturer as technology that

originated in the U.S. comes home, he said.

An article by Zachy Hennessey titled “Israel Devotes NIS [New Israel Shekel] 150 Million to Lasers, Super Material and Eating Flies” was posted at [jpost.com](https://jpost.com) on Jan. 11, 2023. Following are excerpts of the article.

---

The IIA [Israel Innovation Authority] outlined its areas of focus for 2023, and announced a 150 million NIS budget to launch three “innovation consortiums” – groups of innovative tech companies.

- Photoics: Data at the speed of light

The photonics consortium, which will consist of four companies – Elop, Cielo, Quantum Source and New Photonics – will tackle the advancement of Photoics technology, which relates to the use of light as a means of data processing, chip development and communications systems.

- Metamaterials: Super fabric, sensors and perhaps invisibility

The second consortium is a group of eight companies dedicated to metasurface and metamaterial technology. These careful combinations of extremely tiny nano- and micro-structures can be engineered with special properties via electromagnetic wave manipulation.

- Black soldier flies: High in protein and love eating trash

Lastly, a budget of 28 million NIS has been allotted to the launch of a Black Soldier Fly consortium, which aims to kill three birds with one stone – protein production, better recycle organic waste and more efficiently feed livestock (and potentially people).

A website for the Washington State Department of Social and Health Services has a statement titled “What’s the difference between legal and undocumented immigrants?” posted at [dshs.wa.gov](https://dshs.wa.gov). Following is the statement.

- 
- Legal immigrants are foreign-born people legally admitted to the U.S.
  - Undocumented immigrants, also called illegal aliens, are foreign-born people who do not possess a valid visa or other immigration documentation, because they entered the U.S. without inspection, stayed longer than their temporary visa permitted, or otherwise violated the terms under which they were admitted.

Dear President Biden:

Your Visit to our southern border with Mexico today is \$20 billion too little and two years too late. Moreover, your visit avoids the sites where mass illegal immigration occurs and sidesteps the thousands of angry Texas property owners where lives have been destroyed by your border policies. Even the city you visit has been sanitized of the migrant camps which has overrun downtown El Paso because your Administration wants to shield you from the chaos that Texans experience on a daily basis. This chaos is the direct result of your failure to enforce the immigration laws that Congress enacted.

Under President Trump, the federal government achieved historically low levels of illegal immigration. Under your watch, by contrast, America is suffering the worst illegal immigration in the history of our country. Your open-border policies have emboldened the cartels, who grow wealthy by trafficking deadly fentanyl and even human beings. Texans are paying an especially high price for your failure, sometimes with their very lives, as local leaders from your own party will tell you if given the chance.

All of this is happening because you have violated your constitutional obligation to defend the States against invasion through faithful execution of federal laws. Halfway through your presidency, though, I can finally welcome you to the border. When you finish the photo-op in a carefully stage-managed version of El Paso, you have a job to do:

- You must comply with the many statutes mandating that various categories of aliens “shall” be detained, and end the practice of unlawfully paroling aliens *en masse*.
- You must stop sandbagging the implementation of the Remain-in-Mexico policy and Title 42 expulsions, and fully enforce those measures as the federal courts have ordered you to do.
- You must aggressively prosecute illegal entry between ports of entry, and allow ICE to remove illegal immigrants in accordance with existing federal laws.
- You must immediately resume construction of the border wall in the State of Texas, using the billions of dollars Congress has appropriated for that purpose.
- You must designate the Mexican drug cartels as foreign terrorist organizations.

On behalf of all Americans, I implore you: Secure our border by enforcing Congress’s immigration laws.

**Isaiah 55:6-11—"Seek you the Lord while He may be found, call upon Him while He is near. Let the wicked forsake his way, and the unrighteous man his thoughts; let him return to the Lord, and He will have mercy on him; and to our God, for He will abundantly pardon. 'For My thoughts are not your thoughts, nor are your ways My ways,' says the Lord. For as the heavens are higher than the earth, so are My ways higher than your ways, and My thoughts than your thoughts. For as the rain comes down, and the snow from heaven, and do not return there, but water the earth, and make it bring forth and bud, that it may give seed to the sower and bread to the eater, so shall My word by that goes forth from My mouth; it shall not return to Me void, but it shall accomplish what I please, and it shall prosper in the thing for which I sent it."**
