**Luke 21:34-36**—“But take heed to yourselves, lest your souls be weighed down with self-indulgence, and drunkenness, or the anxieties of this life, and that day come on you suddenly, like a falling trap; for it will come on all dwellers on the face of the whole earth. But beware of slumbering; and every moment pray that you may be fully strengthened to escape from all these coming evils, and to take you stand in the presence of the Son of Man” (Weymouth New Testament).

“Eye on the World” comment: The following headlines involve articles that are considered international. The articles were not posted, but the headlines give the essence of the story.

An article by Editorial Board titled “We Now Know the Likely Truth About Covid, and How Scientists Lied” was posted at nypost.com on May 16, 2024. Following is the article.

---

Covid-19, which killed 1.1 million Americans and destroyed the lives and livelihoods of millions more, is a manmade virus that escaped from a Chinese lab partly funded by the U.S. government.

Even today, you’re not supposed to say that – even though it’s the only plausible scenario.

No, “fact checkers” will rush in to claim that eminent scientists deny this. Which is because those scientists have too much invested – in money, in time, in their own beliefs – to admit the truth.

But as Congress continues to probe, that truth is coming out, little by little, and the lies are being

exposed.

- Lie – Covid is naturally occurring

China tried to deflect blame immediately by saying the virus supposedly began in a “wet market” of animal meat in Wuhan.

Dr. Anthony Fauci repeatedly argued it “evolved in nature and then jumped species” in the spring of 2020.

Since then, both long investigations and government reports have concluded that the virus is manmade. Fauci grudgingly admitted it “could be” true.

- Lie – The virus didn’t come from the lab in Wuhan

Anyone who questioned this claim – including The Post – was censored online in 2020. The reason? A statement published in Lancet by 27 scientists calling it a “conspiracy theory.”

We now know that statement was drafted by Peter Daszak, president of EcoHealth Alliance, the company working on research in the Wuhan lab. He was just trying to cover his own complicity.

All signs point to a lab leak. The only reason we can’t say it conclusively is because China has been allowed to destroy all evidence.

- Lie – The U.S. didn’t fund ‘gain-of-function’ research

Scientists sometimes experiment with viruses, making them easier to catch or more deadly, as a way to determine what might happen or what vaccines may be needed.

But in May 2021, Fauci stated unequivocally that the U.S. “has not ever and does not now fund gain-of-function research in the Wuhan Institute of Virology.”

On Thursday, NIH deputy director Lawrence Tabak directly contradicted that. U.S. Taxpayers did fund EcoHealth, which was working on gain-of-function research in Wuhan.

On cue, the National Institutes of Health has changed the definition of the term on its website to make it sound benign.

Except it isn’t benign. EcoHealth was specifically working in China because such work was not allowed in the United States. What researchers were doing with coronaviruses was very dangerous.

And while there may be a scientific debate about whether such inquiries are worthwhile, deadly viruses have leaked from Chinese labs before. It is the height of irresponsibility for the U.S. to be involved.

The Heritage Foundation has called the cover-up of the origins of Covid “The Lie of Century.” We agree. This is a scandal of colossal scale, one that requires a complete overhaul of the entire National Institutes of Health. They lied about a weapon that devastated our country. They can’t be allowed to get away with it.

An article by Dvora Waysman titled “Thank You Hagana for Leading Jewish Insurgency and Securing the Israeli State” was posted at [jpost.com](https://jpost.com) on May 11, 2024. Following are excerpts of the article.

---

Thank you, Hagana. I don’t think it’s an exaggeration to say that without the Hagana, today we would not be living in our own land (Israel) – celebrating the fact that Jews the world over know that in times of need, their homeland is here for them.

On Monday night, April 10, 1948, the Hagana firmly held the entire 24-km mountain highway from Bab el-Wad (today’s Sha’ar Hagai) eastward to Jerusalem. It brought to a climax two days of fighting – in which the Hagana captured the land overlooking the eight-km ravine. Their forces operated fan-wise around the ravine in pursuit of the Arabs who fought them.

- Hagana means “defense” in Hebrew.
- It was the main Zionist paramilitary organization (founded in 1920) that operated for the Yishuv during the British Mandate.
- Its original purpose was to defend Jewish settlements against Arab attacks.
- Until the end of World War II, the Hagana’s activities were moderate. At that point, the more radical forces (Irgun and the Stern Group) broke away from it. The Hagana received clandestine military support from Poland.
- When World War II ended, the British refused to lift the restrictions on Jewish immigration that they had imposed under the 1939 White Paper. As a result, the Hagana led a Jewish insurgency against the British in Palestine. They bombed bridges, railways, as well as the ships used to deport illegal Jewish immigrants.
- When the UN Partition Plan for Palestine was adopted in 1947, the Hagana came into the open as the biggest fighting force for the Jews – successfully overcoming Arab militias during the 1948 Palestine Civil War.
- Shortly after the beginning of the 1948 War of Independence, the Hagana merged with other paramilitary groups and reorganized into the official military force of the State of Israel.

The evolution went from Hashomer (The Watchman) to Hagana, and finally today’s IDF.

We owe an enormous debt to the brave members of the Hagana. So, on Independence Day [which was May 13], let us sing their praises with gusto.

An article by Bethan Sexton titled “The Deadliest Highways in America Are Revealed – With Three States Proving Particularly Dangerous and the ‘Least Safe’ [Texas] Responsible for Nearly 4,500 Deaths a Year” was posted at [dailymail.co.uk](http://dailymail.co.uk) on May 13, 2024. Following are excerpts of the article.

With 4,498 deaths in 2021, Texas was identified as the most perilous state for motorists. The 79,000 miles of highways in the Lone Star State saw 4,068 crashes in the same year. Texas also recorded the most alcohol-related fatalities, with a third of motorists involved in collisions testing blood alcohol levels (BAC) of .01 or higher.

The data also revealed that Mississippi is one of the most dangerous states for young drivers. One reason for the high number of crashes is thought to be that drivers can obtain a license without taking a driving test. Additionally, the state is among the lowest for users of seatbelts.

The data also revealed that states with stricter driving standards tended to record a lower number of crashes.

Least safe

- 1. Texas
- 2. California
- 3. Florida
- 4. Georgia
- 5. North Carolina

Most safe

**Isaiah 55:6-11**–“Seek you the Lord while He may be found, call upon Him while He is near. Let the wicked forsake his way, and the unrighteous man his thoughts; let him return to the Lord, and He will have mercy on him; and to our God, for He will abundantly pardon. ‘For My thoughts are not your thoughts, nor are your ways My ways,’ says the Lord. For as the heavens are higher than the earth, so are My ways higher than your ways, and My thoughts than your thoughts. For as the rain comes down, and the snow from heaven, and do not return there, but water the earth, and make it bring forth and bud, that it may give seed to the sower and bread to the eater, so shall My word by that goes forth from My mouth; it shall not return to Me void, but it shall accomplish what I please, and it shall prosper in the thing for which I sent it.”
