

# Eye on the World

## May 3, 2025

This compilation of material for “Eye on the World” is presented as a service to the Churches of God. The views stated in the material are those of the writers or sources quoted by the writers, and do not necessarily reflect the views of the members of the Church of God Big Sandy. The following articles were posted at churchofgodbigandy.com for the weekend of May 3, 2025.

**Compiled by Dave Havir**

**Luke 21:34-36**—“But take heed to yourselves, lest your souls be weighed down with self-indulgence, and drunkenness, or the anxieties of this life, and that day come on you suddenly, like a falling trap; for it will come on all dwellers on the face of the whole earth. But beware of slumbering; and every moment pray that you may be fully strengthened to escape from all these coming evils, and to take your stand in the presence of the Son of Man” (Weymouth New Testament).

An article by Alex Winston titled “Mussolini’s Jews: How Mussolini Bewitched Italy’s Jewish Communities” was posted at jpost.com on April 26, 2025. Following are excerpts of the article.

---

For nearly two decades, millions of Italians, and thousands of Jews, believed in Benito Mussolini as the man to make things right for Italy. In the end, they were wrong.

Eighty years after his death at the hands of Italian partisans, Benito Mussoline remains an enigma. Often derided as an overly dramatic buffoon, a tyrannical caricature, and more often cast in the same light as Adolf Hitler, he ruled Italy for more than two decades with an iron hand – introducing the concept of fascism as an attempt to help the country recover from the chaos after World War I and make Italy a true world power.

In the annals of European tragedy, the story of Italy’s Jews under fascism is a tale of paradox and betrayal – an elegy for a community that once believed itself inseparably Italian.

At the heart of this drama stands Mussolini. The duce (“leader,” derived from Latin dux and related to “duke”) of a modern Roman Empire; a man who began his reign with Jewish friends and patrons; and ended it as Hitler’s willing accomplice – overseeing the racial degradation of the very people who had helped raise him to great heights.

It is a story that defies easy categorization.

- Mussolini was no Hitler.

- He did not emerge from the fever swamps of anti-Semitic pamphleteering or the beer halls of conspiracy madness.
- In the early years, Mussolini was not only indifferent to anti-Semitism, he seemed to scorn it.
- And yet, by 1938 he would sign the infamous Racial Laws that excluded Jews from Italian life; and, in his final act, he collaborated with Nazi Germany in the deportation and extermination of Italian Jews.

To understand how this betrayal came to pass, one must begin not with the fascist regime but with the Jews of Italy themselves – among the oldest communities in Europe.

### **Growing influence**

Jews have lived in the Italian Peninsula since Roman times. Over the centuries, they endured ghettos and papal decrees – but their fortunes rose dramatically in the 19<sup>th</sup> century. With the unification of Italy under the House of Savoy (and particularly the influence of Piedmontese liberalism), Jews were emancipated and embraced as full citizens of the new Italian state.

For the first time, they were able to leave the ghettos and participate in civilian life in Italy – many rising to the top of their fields. They served in parliament, ran banks, taught in universities. Many espoused Italian nationalism with fervor, seeing in it a civic creed to replace religious tribalism. During the Risorgimento (unification) and beyond, Jewish patriots fought for Italy's independence. This deep-rooted loyalty was a point of pride – but ultimately, a source of their undoing.

Italian prime minister Luigi Luzzatti (who took office in 1910) was one of the world's first Jewish heads of government. And another (Ernesto Nathan) served as mayor of Rome from 1907 to 1913. By 1902, out of 350 senators, six were Jews. By 1920, there were 19 senators.

For many Italian Jews (particularly in the northern cities of Turin, Milan and Genoa), leaving the ghettos was an opportunity to shed religiously Orthodox lifestyles and led to an increase in assimilation.

By the time Mussolini took power in 1922, many felt just as Italian as they were Jewish – proud of their homeland and believing that their homeland was proud of them.

Thousands of Jews volunteered to serve in WW-1 when Italy joined on the side of the Allies against Austria-Hungary and Germany.

### **Mussolini – the early years**

Benito Mussolini entered the world on July 29, 1883, in the modest village of Dovia di

Predappio – nestled in the province of Forli in the Romagna region.

His father (Alessandro Mussolini) worked as a blacksmith and was a committed socialist. His mother (Rosa Maltoni) taught at a local school and was a devout Catholic.

Reflecting his father's ideological leanings, the boy was named after the Mexican liberal leader Benito Juarez with his middle names (Andrea and Amilcare) honoring prominent Italian socialist figures Andrea Costa and Amilcare Cipriani.

In return for permitting these politically charged names, his mother insisted that her son be baptized.

Following in his father's radical footsteps, he emerged as one of Italy's most visible socialist agitators. In 1911, he joined a socialist-led protest against Italy's war in Libya – railing against what he regarded as a colonialist campaign.

His fiery rhetoric resulted in five months in prison. Upon release, he took a leading role in purging the Socialist Party of its more moderate elements, such as Ivanoe Bonomi and Leonida Bissolati – whom he derided as revisionists for supporting the war.

By 1912, Mussolini had secured a seat on the National Directorate of the Italian Socialist Party (PSI) and was rewarded with the editorship of *Avanti!* – the party's official newspaper. Under his leadership, the paper's circulation catapulted from 20,000 to 100,000 copies, elevating his influence on the Italian Left.

When war erupted in Europe in August 1914, socialist parties across the continent found themselves torn between ideology and nationalism. Italy was no exception. Nationalist fervor surged.

Initially, Mussolini toed the party line. In an August 1914 editorial, he wrote emphatically: “Down with the war. We remain neutral.”

But beneath the surface, his thinking was shifting. He began to see the war as a unique opportunity for Italy and for himself. Influenced by strong anti-Austrian sentiment and the belief that Italians under Habsburg rule could achieve liberation through conflict. Mussolini began to reconsider. He argued that socialists had a role to play in dismantling the imperial monarchies of Germany and Austria-Hungary.

As he moved further toward interventionism, Mussolini began attacking his former comrades. He painted anti-war socialists as disconnected from the Italian working class.

With his rupture from the Socialist Party complete, Mussolini reinvented himself. He distanced himself from class-based politics and aligned instead with a brand of revolutionary nationalism that sought to transcend class altogether.

Mussolini's new doctrine was rooted in the idea of vanguard elite – not of workers, but of dynamic, revolutionary individuals from any social stratum. Although he had cast off traditional socialism, he still identified with the legacy of Italy's nationalist-socialist heroes.

These early principles would evolve into the bedrock of fascism.

The animosity between interventionist like Mussolini and the socialist establishment soon spilled over into violence. These clashes helped solidify Mussolini's belief that political violence was a legitimate and necessary tool of fascism.

When Italy joined the war, Mussolini followed through on his beliefs and volunteered for military service. He served approximately nine months in the trenches and contracted paratyphoid fever during that period. His combat service came to an end in February 1917, when a mortar explosion left his body riddled with shrapnel.

### **Rise of fascism**

When fascism emerged in the early 1920s as a viable opposition to socialism, a surprising number of Jews (relative to their small number) joined the National Fascist Party. Their support continued in some cases right up until the passing of the racial laws in 1938.

Compared to Rome and the southern cities (where the poorer Jewish families lived), the northern cities were filled with wealthy industrial Jews, bankers and merchants – who were vehemently afraid of the rise of socialism. Italy at this time was in chaos. As governments were formed and then fell, the socialists took over the streets, and strikes were prevalent in all major cities.

The fascists promised order to the anarchy that had gripped an Italy on the brink of civil war. The fascists – with the axe as their symbol, their intimidating black uniforms and their motto *Me ne frego* (“I don't give a damn”) – took to the streets to drive the trams, sweep the streets and try to provide a visible alternative to the social disorder that was gripping post WW-1 Italy.

Mussolini had entered official politics and was elected to the Italian parliament, although his party was still a minority. The return of thousands of WW-1 veterans (scorned by the socialists) provided Mussolini with a support base.

- In the early hours of October 28, 1922, some 30,000 fascist blackshirts converged on the capital, Rome, pressing for the removal of prime minister Luigu Facta and the establishment of a fascist-led government.
- By that morning (as tensions rose), King Victor Emmanuel III (who wielded ultimate authority over the military) rejected the cabinet's plea to impose martial law.
- This refusal led to Facta's resignation.
- The king sent for Mussolini and invited him to form a new government – Mussolini was

now Italy's new prime minister.

Slowly but surely (over the succeeding years), Mussolini and the fascists were able to strip Italy piece by piece of its civil liberties until a dictatorship was firmly in place.

- Political parties were outlawed, except for the Fascist Party.
- Newspapers and the media were tightly controlled.
- A cult of personality was put into place – Mussolini gradually became the Dictator.

### **Mussolini's mistress**

There is one clear example to point to Mussolini's lack of anti-Semitic fervor and how little he seemed to believe in the racial supremacy of Italians earlier in his career.

Perhaps no figure embodied the entanglement of Jewish intellect and fascist ambition more vividly than Margherita Sarfatti – Mussolini's Jewish mistress.

Margherita began a romantic relationship with Mussolini in 1911. She wielded considerable influence on him for almost two decades. By the 1930s, her relationship with Mussolini had deteriorated as he distanced himself from her and pursued younger women. She fled Italy in 1938 amid growing anti-Semitism – taking with her 1,272 of Mussolini's letters. (While her surviving children endured the war in Italy, her sister and brother-in-law were arrested and died en route to Auschwitz.)

### **Mussolini's relationship with the Jews**

Mussolini himself acknowledged the contribution of Italian Jews in the early years of his regime.

In 1929 (the same year he met Ettore Ovazza, the head of a Turinese Jewish delegation), he publicly recognized the importance of Jewish participation in Italian society and framed Jewish culture as essentially Mediterranean – in line with his early view of Italy's place in a broader Latin and cultural sphere.

At the time, Mussolini considered the Jews native Italians, a people who had lived on the Italian Peninsula for millennia and were woven into the national fabric.

The fascist leader frequently referenced the deep historical roots of Italy's Jewish community, sometimes claiming that some Jews had lived in Rome since the time of its ancient kings. That (he said) meant they were essentially Italian and should be left in peace. He regularly found himself at odds with Jews of Zionist persuasion, and found it conflicting how Jews could possibly have any other loyalties (such as an attempt to found a homeland) other than to Italy.

During the early 1930s, Italy became a surprising refuge for Jews fleeing persecution in Germany. Up to 11,000 Jewish refugees entered the country in the first half of the decade –

including thousands from Germany. Despite the growing presence of fascist authoritarianism, Italy was for a time a relatively safe haven.

The regime even entertained cooperation with Zionist leaders, proposing initiatives to encourage Italian Jewish emigration to Palestine. The idea (from Mussolini's perspective) was to foster a cadre of pro-Italian Jews in the British Mandate – a way to undermine London's influence in the Middle East and increase Italy's strong position in European politics.

In 1934, at the request of Zionist leader Vladimir Jabotinsky, Mussolini's government helped establish a naval training school for Jewish cadets in Civitavecchia – a major seaport 60 kilometers (37 miles) west-northwest of Rome (a curious footnote in the history of the Israeli Navy).

For much of the 1920s and into the early 1930s, Mussolini firmly denied that anti-Semitism had any place in Italian fascism.

In a 1930 interview with German-Jewish writer Emil Ludwig, Mussolini dismissed anti-Semitism as a “German vice” and declared that there was not Jewish question in Italy because a healthy government would never permit one to arise.

On more than one occasion, Mussolini even went to far as to mock Nazi racial theory, particularly the notion of a superior Aryan race – calling it idiotic and unscientific.

Mussolini stated: “National pride has no need for the delirium of race.”

### **Mussolini and the Catholic Church**

Italian anti-Semitism during the fascist era cannot be understood without first confronting the Catholic Church's long and troubled history with the Jewish people – and how that tension evolved amid Italy's political unification and its uneasy accord with Mussolini.

For centuries, the Catholic Church had held both theological and political sway over vast swaths of the Italian Peninsula. From the Middle Ages through to the 19<sup>th</sup> century, the Papal States operated as a powerful temporal entity, with Rome at its center.

That dominance ended with the Risorgimento, and it can be argued that the biggest loser during the unification of Italy was the papacy and its loss of both land and influence within the country.

In 1870, the Kingdom of Italy annexed Rome and the remaining papal territories, effectively stripping the Vatican of its political sovereignty. The pope, furious at the loss, declared himself a “prisoner in the Vatican” – refusing to recognize the legitimacy of the new Italian state.

The bitterness from this episode colored church attitudes toward the new secular Italy – and towards liberalism, nationalism and often Jews (whom church doctrine had long scapegoated as

obstinate nonbelievers). Catholic anti-Semitism (deeply rooted in notions of deicide and spiritual inferiority) remained embedded in clerical thought well into the modern era.

Though racial anti-Semitism as developed in Germany was not native to Catholic theology, suspicion of Jews as a political and cultural “other” persisted through the early 20<sup>th</sup> century.

### **Lateran Accords**

In 1929, Mussolini on behalf of the Kingdom of Italy and Cardinal Pietro Gasparri for the Holy See signed the Lateran Accords – recognizing Vatican City as an independent state, granting the church financial compensation for its lost lands and declaring Catholicism the state religion of Italy.

This pact transformed the relationship between church and state, giving the Vatican institutional legitimacy and influence in fascist Italy.

But it also placed the church in a moral bind. While it gained protection and prestige, it did so at the price of accommodating (and at times enabling) a regime that would turn sharply anti-Semitic by the late 1930s.

Throughout the 1920s and early 1930s, the church’s stance regarding Jews was a mix of theological disdain and political caution. Catholic newspapers and clergy often echoed conspiratorial rhetoric, portraying Jews as agents of liberalism, communism or materialism. The Vatican itself rarely intervened publicly on behalf of Jews – though it did occasionally caution against extreme nationalism and racial ideology.

When the fascist racial laws were introduced in 1938, the church’s response was muted and conflicted. Pope Pius XI did issue a quiet, but powerful rebuke of racism in a July 1938 speech at the Propaganda Fide college. However, institutional Catholic resistance to the racial laws was inconsistent.

- By aligning with Mussolini in 1929, the church had gained temporal sovereignty and safeguarded its institutional interests.
- But in doing so, it entangled itself with a state that would ultimately betray Italy’s Jews.
- Catholic anti-Semitism in Italy during the 1920s through 1940s was not of the genocidal Nazi variety, but it was a centuries-old prejudice that paved the way for silence, indifference, and complicity at a critical moment in history.

### **Beginning of the end**

For Italy’s Jews, the beginning of the end began with the election of Adolf Hitler as German chancellor in January 1933 – although relations between the two fascist powers were not always

positive. The two countries almost came to war over Austria before Mussolini eventually threw his lot in completely with the German Fuhrer.

By 1932, an estimated 10,000 Jews were members of the Fascist Party – around one in five of Italy's 47,000-strong Jewish community.

But Mussolini's protection was conditional. Within the fascist ranks, there were voices who had long pushed anti-Semitic rhetoric from the fringes.

As early as 1934, signs of exclusion began to surface. The regime began targeting anti-fascist Jews in the press, often lumping them together with Zionists.

Between 1936 and 1938, anti-Semitic rhetoric increasingly appeared – not just in editorials, but in graffiti, public discourse and academic journals. Scholars in fields like eugenics, anthropology, and demographics began promoting race-based theories. The ground was shifting.

The first major shift in fascist thinking came in July 1938 with the publication of the "Manifesto of Race" by pseudo-scientists – which can be broken down into several distinct ideas.

1. Human races exist
2. There are great and small races
3. The concept of race is purely biological
4. The population of modern Italy is of Aryan origin, and its civilization is Aryan
5. It is a myth that other peoples have mingled with the Italian population in modern times
6. There now exists an Italian race
7. The time has come for Italians to proclaim themselves racists
8. It is necessary to distinguish between European Mediterraneans (and Africans, Orientals)
9. Jews do not belong to the Italian race
10. The European physical & psychological traits of Italians must not be altered in any way

In September 1938, the transformation became official state policy: Italy promulgated its racial laws.

- While these did not explicitly call for extermination, they systematically stripped Jews of their civil rights.
- Jews were expelled from public education, the military and most government positions.
- Marriage between Jews and non-Jews was outlawed.
- Jews were barred from hiring non-Jewish employees.
- Economic participation became nearly impossible.

Many Italian fascists (particularly those with ties to Germany) embraced these measures. For

many Jews who had grown up under fascism and Mussolini's rule, the idea that they were suddenly outsiders was horrifying and nearly impossible to accept. Consequently, few could immediately grasp the full scale of the disaster heading their way.

While some Italian Jews actively supported fascism, others fiercely resisted it. A number of Jewish intellectuals and activists joined the underground resistance after the laws were passed.

### **Exemptions for some Jews**

In the immediate aftermath of the 1938 racial laws, a curious and tragic legal fiction emerged within fascist Italy – the category of *ebrei discriminati* or “discriminated Jews.” These were individuals (who despite being Jewish according to the regime's definitions) had distinguished themselves in service to the state – particularly as early adherents of fascism, veterans of WW-I or longtime party members.

This class of Jews (many of whom had marched on Rome in 1922 or held prominent posts within the regime) petitioned for exemptions from certain racial restrictions.

The logic was chillingly bureaucratic: While the state deemed Jews as a collective to be a threat to the racial integrity of the nation, it allowed for individual dispensations on the basis of loyalty, service, or merit.

- These exemptions were not blanket absolutions.
- They did not erase Jewish identity in the eyes of the law.
- But they postponed its consequences.
- It was a distinction without real protection.
- For a time, the regime played along.
- Discriminated Jews were permitted to retain certain rights.
- This relied entirely on the goodwill (or indifference) of local bureaucrats.
- As Italy drew closer to Nazi Germany, the space for such ambiguity began to vanish.

When Germany occupied northern Italy in 1943 and the Italian Social Republic began actively collaborating in the Final Solution, the Jewish people with exemptions lost whatever special status they had briefly held.

The fascist regime no longer made exceptions. Loyalty was no longer currency. That state that had once offered bureaucratic loopholes now offered only deportation orders.

What began as a brief conditional inclusion ended in betrayal for many.

The category of discriminated Jews was a delay rather than a shield – and the illusion that fascism could be embraced without consequence by Jews (who believed in Italy, who believed in Mussolini or who believed in their own exceptionalism) was extinguished by the time the Germans took over half the country.

## **End of Mussolini era**

The era of Mussolini ended not in glory or even in formal justice, but in blood and fury on the streets of Milan. For a man who once promised to restore Rome's imperial greatness, his final chapter came as a public warning.

Stripped of dignity, hung by the heels, and a symbol of the wreckage fascism had brought to Italy, his reign brought misery and pain to millions – particularly by the end.

For nearly two decades, millions of Italians and thousands of Jews, believed in Mussolini.

- Mussolini was to be the man to make things right for Italy.
- Mussolini was the man for whom history beckoned.
- Mussolini was the man who would never betray them as loyal Italians.
- In the end, they were wrong.

**Isaiah 55:6-11**–“Seek you the Lord while He may be found, call upon Him while He is near. Let the wicked forsake his way, and the unrighteous man his thoughts; let him return to the Lord, and He will have mercy on him; and to our God, for He will abundantly pardon. ‘For My thoughts are not your thoughts, nor are your ways My ways,’ says the Lord. For as the heavens are higher than the earth, so are My ways higher than your ways, and My thoughts than your thoughts. For as the rain comes down, and the snow from heaven, and do not return there, but water the earth, and make it bring forth and bud, that it may give seed to the sower and bread to the eater, so shall My word by that goes forth from My mouth; it

**shall not return to Me void, but it shall accomplish what I please, and it shall prosper in the thing for which I sent it.”**
